PROJECTS:

➤ Pet care E Commerce Web App :

The Pet Care E-commerce Web App is an online platform for pet owners to purchase pet-related products and services. It offers a user-friendly and responsive design, allowing users to browse and buy pet supplies, including food, toys, and grooming products. Services like veterinary appointments, pet grooming, and training are also available. The front-end development uses HTML, CSS, and Bootstrap for an attractive and adaptable interface. The back-end relies on Java Spring Boot for efficient development and scalability. User verification is ensured through email verification, requiring users to confirm their email address by clicking on a verification link. This enhances security and prevents unauthorized access.

➤ SARVABHAUM CHARITABLE FOUNDATION WEBSITE:

As part of the SARVABHAUM CHARITABLE FOUNDATION website project, I created a static website that serves as an online presence for the organization. The website includes detailed information about the foundation, its mission, and the charitable initiatives it undertakes. I worked on developing the front-end using HTML, CSS to create an engaging and visually appealing design. The website is responsive, ensuring a seamless experience across different devices and screen sizes. I also incorporated SEO best practices to optimize the website for search engine visibility. Overall, my involvement in this project allowed me to showcase my skills in web development, design, and attention to detail.s

Training/Internship:

Linkcode Technologies:

As a Full Stack Developer Trainee at Linkcode Technologies in Pune, I received comprehensive training in Java Full Stack development. This included gaining proficiency in front-end technologies such as HTML, CSS, JavaScript, Bootstrap, and Angular, enabling me to create visually appealing and responsive user interfaces. On the back-end, I acquired in-depth knowledge of Java, Spring Boot framework, and MySQL databases. I learned to build RESTful APIs, implement authentication and authorization mechanisms, and work with data persistence and manipulation. Additionally, I became skilled in version control systems like Git, Agile methodologies, and problem-solving techniques. My training provided practical experience on real-world projects, equipping me to contribute effectively as a Full Stack Developer.
